REQUEST FOR PROPOSALS

CONSULTING SERVICES – INDUSTRIAL BASELINE SURVEY

The Government of Jamaica (GOJ) through the Ministry of Science, Energy and Technology (MSET) has committed funds towards the cost of developing the country's upstream hydrocarbon sector in a manner that aligns the potential value for Jamaican goods and services with the capacity of the Jamaican market to deliver them. This is with a view to retain as much economic value in-country and contribute to the economy of Jamaica.

The MSET, appreciating that Jamaica is in the very early stages of development, understand that in order to assess the current in-country capabilities and their preparedness to support upstream activities, a focused and fit-for-purpose Industrial Baseline Study (IBS) will need to be undertaken. In keeping with this objective the MSET intends to apply the funds toward payments under a contract for the engagement of a consultant to, *inter alia*, develop the definition of local content that is fit-for-purpose for Jamaica; outline local content plans including the role of the operator, segmentation of suppliers by capacity and type over the project lifecycle; define possible manpower needs over the project lifecycle and outline qualitative benchmarks against which monitoring and reporting platforms can be implemented and tracked to demonstrate local content development annually over the project lifecycle.

The MSET now invites suitably qualified and experienced consultants to submit proposals to provide the following consulting services: Industrial Baseline Survey**.**

Details on the services are provided in the **Request for Proposals, available on our website at www.mset.gov.jm** using the link **http://mset.gov.jm/tenders.**

Proposals should be submitted to the email address procurement@mset.gov.jm **by 3:00 p.m. EST on Monday, February 22, 2021**.

Late Proposals will not be accepted.

Only Short-listed Consultants will be contacted.

2. Introduction

2.1 The procuring entity specified in the Data Sheet issues these standard bidding documents (SBD) for the procurement of consulting services as specified in Section 5, Terms of Reference. The name and identification number of this international competitive bidding (RFP) procurement are specified in the Data Sheet. The name, identification, and number of lots are provided in the Data Sheet.

2.2 The procuring entity has received public funds toward the cost of the project named in the **Data Sheet** for the execution of this procurement and intends to select a Consultant from those listed in the Letter of Invitation.

2.3 The shortlisted Consultants are invited to submit a Technical Proposal and a Financial Proposal, or a Technical Proposal only, as specified in the **Data Sheet**, for consulting services named in the **Data Sheet**. The Proposal will be the basis for negotiating and ultimately signing the contract with the selected Consultant/Firm.

2.4 The Consultants/Firms should familiarize themselves with the local conditions and take them into account in preparing their Proposals, which may include attending a pre-

Proposal conference if one is specified in the Data Sheet. Attending any such pre-Proposal conference is optional and is at the Consultant/Firms' expense.

2.5 The procuring entity will provide timely, at no cost to the Consultant/Firms, the inputs, relevant project data, and reports required for the preparation of the Consultant/Firm's Proposal as specified in the **Data Sheet.**

2.6 Bidding will be conducted either in hard copy or using the Government of Jamaica Electronic Procurement (GOJEP) System as **specified in the Data Sheet**.

3. Conflict of Interest

3.1 The Consultant/Firm is required to provide professional, objective, and impartial advice, at all times holding the procuring entity's interests paramount, strictly avoiding conflicts with other assignments or its own corporate interests, and acting without any consideration for future work.

3.2 The Consultant/Firm has an obligation to disclose to the procuring entity any situation of actual or potential conflict that impacts its capacity to serve the best interest of the procuring entity. Failure to disclose such situations may lead to the disqualification of the Consultant/Firm or the termination of its contract and/or sanctions by the Government of Jamaica.

(a) Without limitation on the generality of the foregoing, the Consultant/Firm shall not be hired under the circumstances set forth below. Consultants/Firms may be considered to have a conflict of interest with one or more Parties in this bidding process, if they:

(i) are or have been associated in the past, with a firm or any of its affiliates which have been engaged by the procuring entity to provide consulting services for the preparation of the design, specifications, and other documents to be used for the procurement of consulting services under these bidding documents; or

(ii) submit more than one Proposal in this bidding process, however, this does not limit the participation of subcontractors in more than one Proposal;

(b) Conflicting activities

(a) <u>Conflict between consulting activities and procurement of goods, works or non-consulting services:</u> a firm that has been engaged by the procuring entity to provide goods, works, or non-consulting services for a project, or any of its affiliates, shall be disqualified from providing consulting services resulting from or directly related to those goods, works, or non-consulting services. Conversely, a firm hired to provide consulting services for the preparation or implementation of a project, or any of its affiliates, shall be disqualified from subsequently providing goods or works or non-consulting services resulting from or directly related to the consulting services for such preparation or implementation.

(c) Conflicting assignments

<u>(i) Conflict among consulting assignments:</u> a Consultant/Firm (including its Experts and Sub-Consultants) or any of its affiliates shall not be hired for any assignment that, by its nature, may be in conflict with another assignment of the Consultant/Firm for the same or for another procuring entity.

(d) Conflicting relationships

(i) Relationship with the procuring entity' staff: a Consultant/Firm (including its Experts and Sub-consultants) that has a close business or family relationship with a professional staff of the procuring entity who are directly or indirectly involved in any part of (i) the preparation of the Terms of Reference for the assignment, (ii) the selection process for the contract, or (iii) the supervision of the contract, may not be awarded a contract, unless the conflict stemming from this relationship has been resolved in a manner acceptable to the procuring entity throughout the selection process and the execution of the contract.

(ii) Any other types of conflicting relationships as indicated in the **Data Sheet**.

4. Unfair Competitive Advantage

4.1 Fairness and transparency in the selection process require that the Consultants/Firms or their affiliates competing for a specific assignment do not derive a competitive advantage. This may have been derived from having provided consulting services related to the assignment in question. To that end, the procuring entity shall indicate in the **Data Sheet,** and make available to all shortlisted Consultants/Firms, together with this RFP, all information that would in that respect give such Consultant/Firm any unfair competitive advantage over competing Consultants.

5. Fraud, Corruption and Other Prohibited Practices

5.1 The Government of Jamaica requires that all parties involved in the procurement proceedings and execution of such contracts observe the highest standard of ethics.

5.2 For the purposes of this provision, offences of fraud and corruption are defined in Part VII of the Public Procurement Act, 2015 (Act) and any other Act relating to corrupt activities in Jamaica.

5.3 A person who commits an offence under the Act or any other Act relating to corrupt activities in Jamaica shall ---

(a) be liable for conviction under the provisions of the Act or any other Act relating to corrupt activities in Jamaica;

(b) have their bid rejected if it is determined that the bidder is not in compliance with the provisions of the Act, the regulations or any other Act relating to corrupt activities in Jamaica;

(c) risk other sanctions provided for in the Act or the regulations.

6 Eligibility

6.1 A Consultant/Firm may be a firm that is a private entity or the combination of such entities in the form of a joint venture (JV) under an existing agreement or with the intent to enter into such an agreement supported by a letter of intent. In the case of a JV, all members shall be jointly and severally liable for the execution of the entire Contract in accordance with the Contract terms. The JV shall nominate a Representative who shall have the authority to conduct all business for and on behalf of any and all the members of the JV during the bidding process and, in the event the JV is awarded the contract, during contract execution. Unless specified **in the Data Sheet**, there is no limit on the number of members in a JV.

6.2 A Consultant/Firm shall be deemed to have the nationality of a country if the Consultant/Firm is a citizen or is constituted, incorporated, or registered and operates in conformity with the provisions of the laws of that country. This criterion shall also apply to the determination of the nationality of proposed Sub-consultants or suppliers for any part of the Contract including related consulting services.

6.3 A Consultant/Firm shall not have a conflict of interest as specified at ITC/F Clause 3.

6.4 An eligible Consultant/Firm (regardless of its country of registration) shall not

a) have been convicted of an offence involving dishonesty, within five years immediately preceding the commencement of the procurement proceedings;

b) be an undischarged bankrupt;

c) be insolvent or is the subject of winding-up proceedings;

d) in the case of the supplier that is a body corporate, any of its directors, general managers, secretary or any other similar officer, has been convicted of an offence involving dishonesty, or have been the subject of legal or disciplinary proceedings for any breach of duty or professional misconduct, within five years immediately preceding the commencement of the procurement proceedings;

e) have a record of participation in public procurement or the supplier's business practices which gives the procuring entity reasonable cause to believe that the supplier carried out any act involving impropriety in the handling of moneys;

f) have its affairs being managed or administered by a court;

g) in the opinion of the procuring entity, be a person –

(i) who is not of sound probity; or

(ii) who is unable to exercise competence, diligence and sound judgment in fulfilling the supplier's responsibilities in relation to a public procurement.

6.5 A Consultant/Firm may not be a Government owned entity. However, as an exception when the consulting services of government-owned universities or research centers in Jamaica are of a unique and exceptional nature and their participation is critical to project implementation, the procuring entity may agree on the contracting of those institutions on a case-by-case basis. Any such agreement must be in writing and not breach ITC/F Clause 4. On the same basis, university professors or scientists from research institutes may be contracted individually.

6.6 The Consultant/Firm may not propose agency or current employees of the procuring entity. Recruiting former government employees of the procuring entity to work for their former ministries, departments or agencies is acceptable provided no conflict of interest exists. When the Consultant/Firm nominates any government employee as Experts in their technical Proposal, such Experts must have written certification from the Government confirming that they are on leave without pay from their official position and allowed to work full-time outside of their previous official position. Such certification shall be provided to the procuring entity by the Consultant/Firm as part of their technical Proposal.

6.7 Consultants/Firm shall not submit more than one Proposal in this bidding process.

6.8 A Consultant/Firm that is ineligible in accordance with ITC/F Clause 5, at the date of contract award, shall be disqualified.

6.9 In accordance with the regulations, the Consultant/Firm and any named Sub-consultants shall have to demonstrate that they have paid all taxes, duties, fees and other impositions as may be levied in Jamaica prior to the award of contract. Proof of tax compliance is a copy of the Tax Compliance letter (TCL).

6.10 This invitation is only open to Consultants/Firm who have been shortlisted by the procuring entity.

6.11 An eligible Consultant/Firm has the right to a reconsideration or review of an action or decision of the procuring entity in accordance with the reconsideration and review procedures described in the Public Procurement Manual.

B. Preparation of Proposals

7 General Considerations

7.1 The Consultant/Firm is expected to examine all instructions, forms, terms, and specifications in the bidding documents. Failure to furnish all mandatory information or documentation required by the bidding documents shall result in the rejection of the Proposal.

8 Cost of Preparation of Proposal

8.1 The Consultant/Firm shall bear all costs associated with the preparation and submission of its Proposal, and the procuring entity shall not be responsible or liable for those costs.

8.2 The procuring entity shall incur no liability by virtue of it exercising its power to cancel a procurement in accordance with Sections 41 and 44 of the Act.

8.3 Notwithstanding ITC/F Sub-Clauses 8.1 and 8.2, should the Procurement Review Board, following an application for reconsideration decide that the actions of the procuring entity were not in compliance with the provisions of the Act or the regulations, the Procurement Review Board may require the payment of compensation for any reasonable costs incurred by the Consultant/Firm. Any payment shall be limited to the costs of the preparation of the Proposal or the costs relating to the application, or both.

9 Language

9.1 The Proposal, as well as all correspondences and documents relating to the Proposal exchanged by the Consultant/Firm and the procuring entity, shall be written in the English language specified. Supporting documents and printed literature that are part of the Proposal may be in another language provided they are accompanied by an accurate translation of the relevant passages into the English language, in which case, for purposes of interpretation of the Proposal, such translation shall govern.

10 Documents Comprising the Proposal

10.1 The Proposal shall comprise the documents and forms listed in the **Data Sheet.**

10.2 In addition to the requirements under ITC 10.1, Proposals submitted by a JV shall include a copy of the JV Agreement entered into by all partners. Alternatively, a Letter of Intent to execute a JV Agreement in the event of a successful Proposal shall be signed by all partners and submitted with the Proposal, together with a copy of the proposed agreement.

11 Only one Proposal

11.1 The Consultant/Firm (including the individual members of any JV) shall submit only one Proposal, either in its own name or as part of a JV in another Proposal. If a Consultant/Firm, including any JV member, submits or participates in more than one Proposal, all such Proposals shall be disqualified and rejected.

11.2 This does not, however, preclude a Sub-consultant, or the Consultant/Firm's staff from participating as Key Experts and Non-Key Experts in more than one Proposal when circumstances justify and if stated in the **Data Sheet.**

12 Proposal Validity

12.1 Proposals shall remain valid for the period **specified in the Data Sheet** after the Proposal submission deadline date prescribed by the procuring entity. A Proposal valid for a shorter period shall be rejected by the procuring entity as non-responsive. During this period, the Consultant/Firm shall maintain its original Proposal without any change, including the availability of the Key Experts, the proposed rates and the total price.

12.2 If it is established that any Key Expert nominated in the Consultant/Firm's Proposal was not available at the time of Proposal submission or was included in the Proposal without his/her confirmation, such Proposal shall be disqualified and rejected for further evaluation, and may be subject to sanctions in accordance with Clause 5 of this ITC/F.

a. Extension of Validity Period

12.3 The procuring entity will make its best effort to complete the negotiations within the Proposal's validity period. However, should the need arise, the procuring entity may request, in writing, all Consultants/Firm who submitted Proposals prior to the submission deadline to extend the Proposals' validity.

12.4 If the Consultant/Firm agrees to extend the validity of its Proposal, it shall be done without any change in the original Proposal and with the confirmation of the availability of the Key Experts.

12.5 The Consultant/Firm has the right to refuse to extend the validity of its Proposal in which case such Proposal will not be further evaluated.

b. Substitution of Key Experts

12.6 If any of the Key Experts become unavailable for the extended validity period, the Consultant/Firm shall provide a written adequate justification and evidence satisfactory to the procuring entity together with the substitution request. In such case, a replacement Key Expert shall have equal or better qualifications and experience than those of the originally proposed Key Expert. The technical evaluation score, however, will remain to be based on the evaluation of the CV of the original Key Expert.

12.7 If the Consultant/Firm fails to provide a replacement Key Expert with equal or better qualifications, or if the provided reasons for the replacement or justification are unacceptable to the procuring entity, such Proposal will be rejected.

c. Sub-Contracting

12.8 The Consultant/Firm shall not subcontract the whole of the consulting services.

13 Clarification and Amendment of RFP

13.1 A prospective Consultant/Firm requiring any clarification of the bidding documents shall contact the procuring entity in writing at the procuring entity's address **specified**

in the Data Sheet. The procuring entity will respond in writing to any request for clarification, provided that such request is received prior to the period stated in the **Data Sheet**. In the case of electronic bidding clarifications should be submitted through the GOJEP System. The procuring entity shall forward copies of its response to all those who have acquired the bidding documents directly from it, including a description of the inquiry but without identifying its source.

13.2 Should the procuring entity deem it necessary to amend the bidding documents as a result of a clarification or the pre-Proposal meeting, it shall do so following the procedure under ITC/F Sub-Clauses 13.3 to 13.5.

13.3 At any time prior to the deadline for submission of consulting services, the procuring entity may, for any reason, whether at its own initiative or in response to a clarification requested by a prospective Consultant/Firm, amend the bidding documents. Later amendments on the same subject modify or replace earlier ones.

13.4 Amendments will be provided in the form of Addenda to the bidding documents, which will be sent in writing to all prospective Consultant/Firms that received the bidding documents from the procuring entity. Addenda will be binding on Consultant/Firms. Consultants/Firms are required to immediately acknowledge receipt of any such Addenda. It will be assumed that the amendments contained in such Addenda will have been taken into account by the Consultant/Firm in its Proposal. In the case of electronic bidding any amendments to the bidding documents will be issued through the GOJEP System.

13.5 In order to afford prospective Consultant/Firms reasonable time in which to take the amendment into account in preparing their consulting services, the procuring entity may, at its discretion, extend the deadline for the submission of consulting services, in which case, the procuring entity will notify all Consultants/Firms in writing of the extended deadline for the submission of consulting services, pursuant to ITC/F Clause 17.

13.6 If the clarification results in the RFP being materially inaccurate the procuring entity shall withdraw and reissue the RFP. Consultants/Firm who obtained these original documents will be permitted to participate without penalty.

14 Preparation of Proposals – Specific Considerations

14.1 While preparing the Proposal, the Consultant/Firm must give particular attention to the following:

14.1.1. If a shortlisted Consultant/Firm considers that it may enhance its expertise for the assignment by associating with other Consultant/Firms in the form of a JV or as Sub-consultants, it may do so with either (a) non-shortlisted Consultant/Firm(s), or (b) shortlisted Consultant/Firms if permitted in the **Data Sheet**. In all such cases a shortlisted Consultant must obtain the written approval of the procuring entity prior to the submission of the Proposal. When associating with non-shortlisted firms in the form of a joint venture or a sub-consultancy, the shortlisted Consultant/Firm shall be a lead member. If shortlisted Consultant/Firms associate with each other, any of them can be a lead member

14.1.2. The procuring entity may indicate in the **Data Sheet** the estimated Key Experts' time input (expressed in person-month) or the procuring entity's estimated total cost of the assignment, but not both. This estimate is indicative

and the Proposal shall be based on the Consultant/Firm's own estimates for the same.

14.1.3. If stated in the **Data Sheet**, the Consultant/Firm shall include in its Proposal at least the same time input (in the same unit as indicated in the **Data Sheet**) of Key Experts, failing which the Financial Proposal will be adjusted for the purpose of comparison of Proposals and decision for award in accordance with the procedure in the **Data Sheet**.

14.1.4. For assignments with a fixed budget, the estimated Key Experts' time input is not disclosed. Total available budget, exclusive of taxes, is given in the **Data Sheet**, and the Financial Proposal shall not exceed this budget.

15 Technical Proposal Format and Content

15.1 The Technical Proposal shall not include any financial information. A Technical Proposal containing material financial information shall be declared non-responsive.

15.2 Depending on the nature of the assignment, the Consultant/Firm is required to submit a Full Technical Proposal (FTP) or a Simplified Technical Proposal (STP) as indicated in the **Data Sheet** and using the Standard Forms provided in Section 3 of the RFP.

16 Financial Proposal

16.1 The Financial Proposal shall be prepared using the Standard Forms provided in Section 4 of the RFP. It shall list all costs associated with the assignment, including (a) remuneration for Key Experts and Non-Key Experts, (b) reimbursable expenses indicated in the **Data Sheet**.

a. Price Adjustment

16.2 For assignments with a duration exceeding 18 months, a price adjustment provision for foreign and/or local inflation for remuneration rates applies if so stated in the **Data Sheet.**

b. Taxes

16.3 The Consultant/Firm and its Sub-consultants and Experts are responsible for meeting all tax liabilities arising out of the contract unless stated otherwise in the **Data Sheet**.

c. Currency of Proposal and Payment

16.4 The currency(ies) of the Proposal and the currency(ies) of payments shall be the same. The Consultant/Firm shall quote in Jamaican Dollars the portion of the Proposal price that corresponds to expenditures incurred in Jamaica, unless otherwise specified in the Data Sheet.

16.5 The Consultant/Firm may express the Proposal price for expenditure outside of Jamaica in any currency. If the Consultant/Firm wishes to be paid in a combination of amounts in different currencies, it may quote its price accordingly but shall use no more than three freely convertible international currencies in addition to Jamaican Dollars.

C. Submission, Opening and Evaluation

17 Submission, Sealing, and Marking of Proposals

17.1 The Consultant shall prepare one original of the documents comprising the Proposal as described in ITC/F Clause 10 and clearly mark it "ORIGINAL". In the case of electronic bidding the Proposal uploaded on the GOJEP system shall be the "ORIGINAL". For hard copy Proposals, the Consultant/Firm shall submit copies of

the Proposal, in the number specified in the Data Sheet and clearly mark them "COPY." In the event of any discrepancy between the original and the copies, the original shall prevail.

17.2 The original and all copies of the Proposal shall be typed, digitally entered or written in permanent ink and shall be signed and stamped by a person duly authorized to sign on behalf of the Consultant/Firm. All pages must also be initialled by the authorized person. This authorization shall consist of a power of attorney and shall be attached to the Proposal.

17.3 A Proposal submitted by a JV shall be signed by all members so as to be legally binding on all members, or by an authorized representative who has a written power of attorney signed by each member's authorized representative.

17.4 Any interlineations, erasures, or overwriting shall be valid only if they are signed or initialed by the person signing the Proposal.

17.5 Proposals shall be submitted by hand in hard copy or electronically as specified in the Data Sheet.

(a) Consultant/Firms submitting consulting services by mail or by hand shall enclose the original and each copy of the Proposal, including alternative consulting services, if permitted, in accordance with ITC/F Clause 14, in separate sealed envelopes, duly marking the envelopes as **"ORIGINAL"** and **"COPY."** These envelopes containing the original and the copies shall then be enclosed in one single envelope. The rest of the procedure shall be in accordance with ITC/F Sub-Clauses 17.6 to 17.9.

(b) Consultants/Firms submitting consulting services electronically shall follow the GOJEP procedures as described in the Quick Guide for Suppliers.

17.6 For hard copy consulting services the original and all the copies of the Technical Proposal shall be placed inside of a sealed envelope clearly marked "Technical Proposal", "[Name of the Assignment]", reference number, name and address of the Consultant/Firm, and with a warning "Do Not Open until [insert the date and the time of the Technical Proposal submission deadline]."

17.9 If all envelopes are not sealed and marked as required, the procuring entity will assume no responsibility for the misplacement or premature opening of the Proposal.

18 Confidentiality

18.1 Information relating to the examination, evaluation, comparison, and post-qualification of Proposals, and recommendation of contract award, shall not be disclosed to Consultant/Firms or any other persons not officially concerned with such process until publication of the Contract Award.

18.2 Any effort by a Consultant/Firm or any person to influence the procuring entity in the examination, evaluation, comparison, and post-qualification of the consulting services or contract award decisions, pursuant to Section 56 of the Act, shall result in the rejection of its Proposal.

18.3 Notwithstanding ITC/F Sub-Clause 18.2, from the time of Proposal opening to the time of Contract Award, if any Consultant/Firm wishes to contact the procuring entity on any matter related to the bidding process, it should do so in writing.

19 Opening of Technical Proposals

19.1 For hard copy consulting services the procuring entity shall conduct the Proposal opening in public at the address, date and time **specified in the Data Sheet** and in accordance with ITC/F Sub-Clauses 19.2 to 19.6. The envelopes with the Financial Proposal shall remain sealed and shall be securely stored with a reputable public auditor or independent authority until they are opened in accordance with Clause 23 of the ITC/F.

19.2 For electronic bidding the GOJEP System shall prepare a Proposal opening report that shall include, as a minimum: (i) the name and the country of the Consultant/Firm or, in case of a JV, the name of the JV, the name of the lead member and the names and the countries of all members; (ii) the presence or absence of a duly sealed envelope with the Financial Proposal; (iii) any modifications to the Proposal submitted prior to Proposal submission deadline; and (iv) any other information deemed appropriate or as indicated in the Data Sheet. A copy of the report will be distributed to all Consultants/Firms who submitted a Proposal.

19.3 Envelopes marked "WITHDRAWAL" shall be opened and read out and the envelope with the corresponding Proposal shall not be opened, but returned to the Consultant/Firm. If the withdrawal envelope does not contain a copy of the "power of attorney" confirming the signature as a person duly authorized to sign on behalf of the Consultant/Firm, the corresponding Proposal will be opened. No Proposal withdrawal shall be permitted unless the corresponding withdrawal notice contains a valid authorization to request the withdrawal and is read out at Proposal opening.

19.4 Envelopes marked "MODIFICATION" shall be opened and read out with the corresponding Proposal. No Proposal modification shall be permitted unless the corresponding modification notice contains a valid authorization to request the modification and is read out at Proposal opening. Only envelopes that are opened and read out at Proposal opening shall be considered further.

19.5 All other envelopes shall be opened one at a time, reading out: (i) the name and the country of the Consultant/Firm or, in case of a JV, the name of the JV, the name of the lead member and the names and the countries of all members; (ii) the presence or absence of a duly sealed envelope with the Financial Proposal; (iii) any modifications to the Proposal submitted prior to Proposal submission deadline; and (iv) any other information deemed appropriate or as indicated in the Data Sheet.

19.6 The procuring entity shall prepare a record of the Proposal opening.

19.7 The Consultant/Firm's representatives who are present shall be requested to sign the attendance sheet.

19.8 A copy of the record shall be distributed to all Consultant/Firms who submitted consulting services in time and posted online when electronic bidding is permitted.

20 Late bids

20.1 The procuring entity shall not consider any Proposal that arrives after the deadline for submission of Proposals, in accordance with ITC/F Clause 19. All late Proposals shall be declared late and rejected. The Consultants/Firms will be notified and must collect their Proposal within 30 days. If the Proposal is not collected within this period it shall be destroyed.

In the case of electronic bidding, consultants/firms quotation will be automatically rejected.

20.2 Subject to provision of Clause 15.1 of the ITC/F, the evaluators of the Technical Proposals shall have no access to the Financial Proposals until the technical evaluation is concluded.

20.3 The Consultant/Firm is not permitted to alter or modify its Proposal in any way after the Proposal submission deadline except as permitted under Clause 12.6 of this ITC/F. While evaluating the Proposals, the procuring entity will conduct the evaluation solely on the basis of the submitted Technical and Financial Proposals.

21 Evaluation of Technical Proposals

21.1 The procuring entity shall evaluate the Technical Proposals on the basis of their responsiveness to the Terms of Reference and the RFP, applying the evaluation criteria, sub-criteria, and point system specified in the **Data Sheet**. Each responsive Proposal will be given a technical score. A Proposal shall be rejected at this stage if it does not respond to important aspects of the RFP or if it fails to achieve the minimum technical score indicated in the **Data Sheet.**

22 Public Opening of Financial Proposals

22.1 After the technical evaluation is completed, the procuring entity shall notify those Consultants/Firms whose Proposals were considered non-responsive to the RFP and TOR or did not meet the minimum qualifying technical score (and shall provide information relating to the Consultant/Firm's overall technical score, as well as scores obtained for each criterion and sub-criterion) that their Financial Proposals will be returned unopened after completing the selection process and contract signing. The procuring entity shall simultaneously notify in writing those Consultant/Firms that have achieved the minimum overall technical score and inform them of the date, time and location for the opening of the Financial Proposals. The opening date should allow the Consultants/Firms sufficient time to make arrangements for attending the opening. The Consultant/Firm's attendance at the opening of the Financial Proposals is optional and is at the Consultant/Firm's choice.

22.2 The Financial Proposals shall be opened by the procuring entity in the presence of the representatives of those Consultant/Firms whose Proposals have passed the minimum technical score. At the opening, the names of the Consultant/Firms, and the overall technical scores, including the break-down by criterion, shall be read aloud. The Financial Proposals will then be inspected to confirm that they have remained sealed and unopened. These Financial Proposals shall be then opened, and the total prices read aloud and recorded. Copies of the record shall be sent to all Consultants/Firm who submitted Proposals.

23 Correction of Errors

23.1 Activities and items described in the Technical Proposal but not priced in the Financial Proposal, shall be assumed to be included in the prices of other activities or items, and no corrections are made to the Financial Proposal.

a. Time-Based Contracts

23.1.1 If a Time-Based contract form is included in the RFP, the procuring entity will (a) correct any computational or arithmetical errors, and (b) adjust the prices if they fail to reflect all inputs included for the respective activities or items in the Technical Proposal. In case of discrepancy between (i) a partial amount (sub-total) and the total amount, or (ii) between the amount derived by multiplication of unit price with quantity and the total price, or (iii) between words and figures, the former will prevail. In case of discrepancy between the Technical and Financial Proposals in indicating quantities of input, the Technical Proposal prevails and the procuring entity shall correct the quantification indicated in the Financial Proposal so as to make it consistent with that indicated in the Technical Proposal, apply the relevant unit price included in the Financial Proposal to the corrected quantity, and correct the total Proposal cost.

b. Lump Sum Contracts

23.1.2 If a Lump-Sum contract form is included in the RFP, the Consultant/Firm is deemed to have included all prices in the Financial Proposal, so neither arithmetical corrections nor price adjustments shall be made. The total price, net of taxes understood as per Clause ITC 25 below, specified in the Financial Proposal (Form FIN-1) shall be considered as the offered price.

24 Taxes

24.1 The procuring entity's evaluation of the Consultant/Firm's Financial Proposal shall exclude taxes and duties in Jamaica in accordance with the instructions in the **Data Sheet**.

25 Conversion to a Single Currency

25.1 For evaluation and comparison purposes, the procuring entity shall convert all Proposal prices expressed in amounts in various currencies into an amount in a single freely convertible currency **specified in the Data Sheet,** using the selling exchange rates established by the source and on the date **specified in the Data Sheet.**

26 Combined Quality and cost Evaluation

26.1 The total score is calculated by weighting the technical and financial scores and adding them as per the formula and instructions in the **Data Sheet**. The Consultant/Firm achieving the highest combined technical and financial score will be invited for negotiations.

D. Negotiations and Award

27 Negotiations

27.1 The negotiations will be held at the date and address indicated in the **Data Sheet** with the Consultant/Firm's representative(s) who must have written power of attorney to negotiate and sign a contract on behalf of the Consultant/Firm.

27.2 The procuring entity shall prepare minutes of negotiations that are signed by the procuring entity and the Consultant/Firm's authorized representative.

a. Availability of Key Experts

27.3 The invited Consultant/Firm shall confirm the availability of all Key Experts included in the Proposal as a pre-requisite to the negotiations, or, if applicable, a replacement in accordance with Clause 12b of the ITC/F. Failure to confirm the Key Experts' availability may result in the rejection of the Consultant/Firm's Proposal and the procuring entity proceeding to negotiate the contract with the next-ranked Consultant/Firm.

27.4 Notwithstanding the above, the substitution of Key Experts at the negotiations may be considered if due solely to circumstances outside the reasonable control of and not foreseeable by the Consultant/Firm, including but not limited to death or medical incapacity. In such case, the Consultant/Firm shall offer a substitute Key Expert within the period of time specified in the letter of invitation to negotiate the contract, who shall have equivalent or better qualifications and experience than the original candidate.

b. Technical negotiations

28 The negotiations include discussions of the Terms of Reference (TORs), the proposed methodology, the procuring entity's inputs, the special conditions of the contract, and finalizing the "Description of Consulting Services" part of the contract. These discussions shall not substantially alter the original scope of consulting services under the TOR or the terms of the contract, lest the quality of the final product, its price, or the relevance of the initial evaluation be affected.

c. Financial negotiations

29 The negotiations include the clarification of the Consultant/Firm's tax liability in Jamaica and how it should be reflected in the contract.

30 If the technique included cost as a factor in the evaluation, the total price stated in the Financial Proposal for a Lump-Sum contract shall not be negotiated.

31 In the case of a Time-Based contract, unit rates negotiations shall not take place, except when the offered Key Experts and Non-Key Experts' remuneration rates are much higher than the typically charged rates by Consultants in similar contracts. In such case, the procuring entity may ask for clarifications and, if the fees are very high, ask to change the rates after consultation with the procuring entity

32 Conclusion of Negotiations

32.1 The negotiations are concluded with a review of the finalized draft contract, which then shall be initialed by the procuring entity and the Consultant/Firm's authorized representative.

32.2 If the negotiations fail, the procuring entity shall inform the Consultant/Firm in writing of all pending issues and disagreements and provide a final opportunity to the Consultant/Firm to respond. If disagreement persists, the procuring entity shall terminate the negotiations informing the Consultant/Firm of the reasons for doing so. The procuring entity will invite the next-ranked Consultant/Firm to negotiate a contract. Once the procuring entity commences negotiations with the next-ranked Consultant/Firm, earlier negotiations cannot be reopened.

33 Award of Contract

33.1 On conclusion of the negotiations and prior to the expiration of the period of Proposal validity, the procuring entity shall notify all Consultants/Firms, in writing, of the determination of the successful Proposal including all the information required by Section 44(2) of the Act.

33.2 The date of the notification under ITC/F Sub-Clause 30.1 establishes the commencement of the standstill period specified in the Data Sheet. During this time Consultant/Firms may query, apply for reconsideration or otherwise challenge the decision of the procuring entity. This may include a request for debriefing seeking explanations for the grounds on which their consulting services were not selected.

33.3 On the expiry of the standstill period the procuring entity shall send the successful Consultant/Firm the initialed draft contract.

33.4 The successful Consultant/Firm shall return the signed contract within 28 days from the date of the Letter of Acceptance and shall sign, date, and return to the procuring entity the signed Contract Agreement.

33.5 On receipt of the signed Contract Agreement the procuring entity will immediately notify in writing all unsuccessful Consultant/Firms, of the final results of the bidding process.

33.6 Following signature of the Contract Agreement, the procuring entity shall publish, in the manner prescribed by the Office, the results, identifying the name of the Consultant/Firm, the contract price and the contract number.

33.7 The Consultant/Firm is expected to commence the assignment on the date and at the location specified in the Data Sheet.

Appendix A. Financial Negotiations - Breakdown of Remuneration Rates

1. **Review of Remuneration Rates**

1.1. The remuneration rates are made up of salary or a base fee, social costs, overheads, profit, and any premium or allowance that may be paid for assignments away from headquarters or a home office. An attached Sample Form can be used to provide a breakdown of rates.

1.2. If the RFP requests submission of a technical Proposal only, the Sample Form is used by the selected Consultant to prepare for the negotiations of the contract. If the RFP requests submission of the financial Proposal, the Sample Form shall be completed and attached to the Financial Form-3. Agreed (at the negotiations) breakdown sheets shall form part of the negotiated contract and included in its Appendix D or C.

1.3. At the negotiations the firm shall be prepared to disclose its audited financial statements for the last three years, to substantiate its rates, and accept that its proposed rates and other financial matters are subject to scrutiny. The procuring entity is charged with the custody of government funds and is expected to exercise prudence in the expenditure of these funds.

1.4. Rate details are discussed below:

(i) Salary is the gross regular cash salary or fee paid to the individual in the firm's home office. It shall not contain any premium for work away from headquarters or bonus (except where these are included by law or government regulations).

(ii) Bonuses are normally paid out of profits. To avoid double counting, any bonuses shall not normally be included in the "Salary" and should be shown separately. Where the Consultant's accounting system is such that the percentages of social costs and overheads are based on total revenue, including bonuses, those percentages shall be adjusted downward accordingly. Where national policy requires that 13 months' pay be given for 12 months' work, the profit element need not be adjusted downward. Any discussions on bonuses shall be supported by audited documentation, which shall be treated as confidential.

(iii) Social Charges are the costs of non-monetary benefits and may include, inter alia, social security (including pension, medical, and life insurance costs) and the cost of a paid sick and/or annual leave. In this regard, a paid leave during public holidays or an annual leave taken during an assignment if no Expert's replacement has been provided is not considered social charges.

(iv) Cost of Leave. The principles of calculating the cost of total days leave per annum as a percentage of basic salary is normally calculated as follows:

$$\text{Leave cost as percentage of salary} = \frac{\text{total days leave} \times 100}{[365 - w - ph - v - s]}$$

Where w = weekends, ph = public holidays, v = vacation, and s = sick leave.

Please note that leave can be considered as a social cost only if the procuring entity is not charged for the leave taken.

(v) Overheads are the Consultant's business costs that are not directly related to the execution of the assignment and shall not be reimbursed as separate items under the contract. Typical items are home office costs (non-billable time, time of senior Consultant's staff monitoring the project, rent of headquarters' office,

support staff, research, staff training, marketing, etc.), the cost of Consultant's personnel not currently employed on revenue-earning projects, taxes on business activities, and business promotion costs. During negotiations, audited financial statements, certified as correct by an independent auditor and supporting the last three years' overheads, shall be available for discussion, together with detailed lists of items making up the overheads and the percentage by which each relates to basic salary. The procuring entity does not accept an add-on margin for social charges, overhead expenses, etc. for Experts who are not permanent employees of the Consultant. In such case, the Consultant shall be entitled only to administrative costs and a fee on the monthly payments charged for sub-contracted Experts.

(vi) Profit is normally based on the sum of the Salary, Social costs, and Overheads. If any bonuses paid on a regular basis are listed, a corresponding reduction shall be made in the profit amount. Profit shall not be allowed on travel or any other reimbursable expenses.

(vii) Away from Home Office Allowance or Premium or Subsistence Allowances. Some Consultants pay allowances to Experts working away from headquarters or outside of the home office. Such allowances are calculated as a percentage of salary (or a fee) and shall not draw overheads or profit. Sometimes, by law, such allowances may draw social costs. In this case, the amount of this social cost shall still be shown under social costs, with the net allowance shown separately. UNDP standard rates for the particular country may be used as reference to determine subsistence allowances.

Section 5. Terms of Reference

1. Background

The transformational opportunity of any petroleum resource belongs to its entire people, which once exploited, reduces the wealth of the nation unless there is transformation of the subsurface value into an improved quality of life aboveground for all present and future generations of Jamaicans. Cognizant of this fact, the Oil & Gas Unit at the Ministry of Science, Energy and Technology (MSET) is charged with developing the country's upstream hydrocarbon sector in a manner that aligns the potential value for Jamaican goods and services with the capacity of the Jamaican market to deliver them; and as such retain as much economic value in-country and contribute to the economy of Jamaica. Since 2016, local Jamaican business and labour communities have been enquiring about avenues for participation in the developing upstream sector. The MSET appreciating that we are in the very early stages of development, understand that in order to assess the current in-country capabilities and their preparedness to support upstream activities, a focused and fit-for-purpose Industrial Baseline Study (IBS) will need to be undertaken. This would need to be implemented sufficiently early in the process to understand Jamaica's baseline goods, services and workforce capabilities and forward pathways required should the industry develop.

An IBS helps to manage the risks for an emerging hydrocarbon economy, manage business and government expectations and provide the nation with a realistic forward plan for upstream participation through a data-led understanding of current Jamaican industry goods, services and workforce potential and the forecasted development needs of each sector should a commercial discovery be made. The IBS will also provide empirical evidence on suppliers and workforce capabilities to help to inform future government policy decisions about local content legal framework policy for the upstream oil and gas industry in Jamaica. Further, an IBS provides quantitative data to operator's contracts and procurement teams to allow them to deliver focused strategies that foster local content opportunities that are fit-for-purpose, efficient, effective and aligned with the upstream project life cycle. **Figure 1** below shows the likely demand for local sourcing and employment opportunities over the exploration lifecycle.

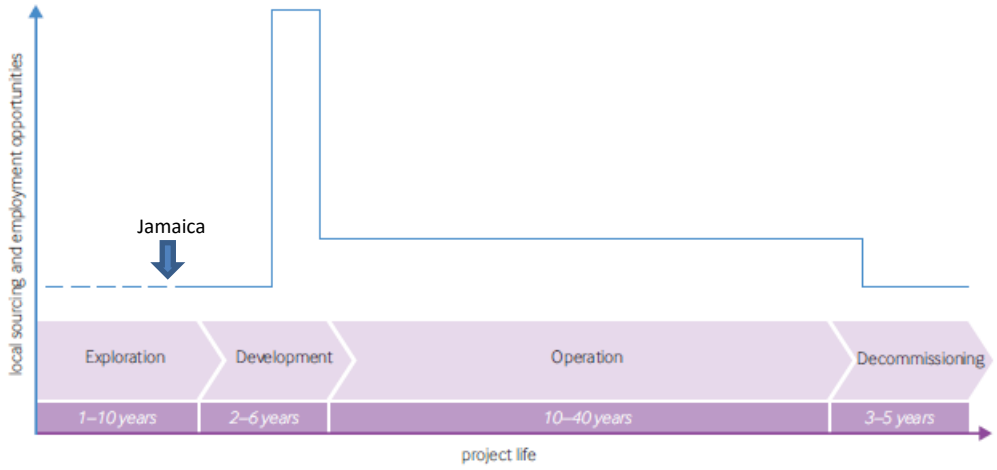

Figure 1 - Local content opportunities in the exploration life cycle and Jamaica's present status

2. Objective(s) of the Assignment

The Oil & Gas Unit requires that a consulting firm with industry-proven IBS execution capability, upstream local content development planning and implementation experience be brought on board to provide the empirical baseline data that maps the quality-quantity gaps for relevant Jamaican goods and services sectors that could best participate in the potential upstream oil and gas sector. The consulting firm will also be required to forecast the work force and services needs that may be generated over the upstream project lifecycle from exploration to decommissioning considering, for example, a hypothetical discovery and subsequent FPSO operations. With the ultimate aim to guide the development of Jamaican goods/services suppliers and Jamaican workforce in order to provide goods and services that contribute positively to the economy of Jamaica.

3. Scope of consulting services, Tasks (Components) and Expected Deliverables

The purpose of this consulting service is to solicit proposals from various consulting firms in accordance with Government of Jamaica Procurement procedures.

The consulting firm will look to develop the definition of local content that is fit-for-purpose for Jamaica through collaboration with the MSET. Optimize Jamaica's guiding principles for upstream local content development, outline local content plans including the role of the operator, segmentation of suppliers by capacity and type over the project lifecycle, define possible manpower needs over the project lifecycle and outline qualitative benchmarks

against which monitoring and reporting platforms can be implemented and tracked to demonstrate local content development annually over the project lifecycle. The ultimate ethos of the IBS is to maximize value retention for Jamaica through the level of usage and consumption of Jamaican goods, services, human resources and in-country financing by the use of data driven decision-making metrics over the upstream project phases.

IBS guidance objectives for the consultant would be to:

- Maximize value retention in-country through the proportionate level of usage and consumption of Jamaican goods, services, manpower and financing;
- Creating a pathway for Jamaican entrepreneurship to participate throughout the upstream value chain in the anticipated upstream activities;
- Foster the transfer of technology;
- Creating job opportunities, training pathways and enhancing skill upgrading pathways for basic-skilled, semi-skilled and highly-skilled Jamaicans in the potential upstream sector;
- Guide the development of Jamaican upstream activities that are equally competitive in international terms and are, in all substantive respects, of a quality comparable with the goods, services and workforce from outside Jamaica.

The consulting firm will be paid within a fixed ceiling amount including reimbursables.

The consulting firm will be required to deliver the following guided by the principles above:

1. Carry out an IBS that aligns with, or upgrades where necessary, the principles outlined in Article 27 and Schedule O of the current Production Sharing Agreement (PSA) (See **Appendix 1**) in order to achieve the active participation and development of Jamaican suppliers and workforce in the upstream sector and maximize and retain value in the Jamaican economy.

2. Conduct a fit-for-purpose IBS based on the local content optimized model that defines the current Jamaican baseline local supplier and workforce capability, defines realistic targets for Jamaican goods, services and workforce by industry segments and skill level, and forecast the future requirements by project expenditure projections over the full exploration lifecycle.
    a. Provide a detailed workforce gap analysis which should as best as possible include:

i. Assessment of the current state of Jamaica's skills development and education programmes that are applicable to the upstream oil and gas sector and that have horizontal and vertical linkages to other industries;
ii. Assessment of the quality of these programmes against industry benchmarks and gauging industry perceptions of the quality of the selected premier technical & vocational school and university graduates;
iii. Assessment of the quantity of graduates that the selected premier technical/vocational schools and universities are able to produce at the required competency standards;
iv. Identify key institutional, curricula, teaching, infrastructural and other capacity gaps that need to be filled at the selected premier technical/vocational schools and universities in order to meet forecasted requirements;
v. Assessment of the extent to which current and future oil and gas upstream operations will be able to provide employment opportunities at the most basic skills level to tertiary educated skill levels, outline the potential for growth of these segments in the potential future oil and gas labour market and define realistic options for enhancing skill levels and/or employability from basic to tertiary skill level;
vi. Assessment for the current and forecasted demand for women employees in the oil and gas industry and identify realistic strategies that could enhance female labour participation;
vii. A plan to bring together demand and supply sides and define realistic options for closing the identified workforce gaps over the project lifecycle to ensure public-private alignment

The ultimate outcome will be a TVET & Higher education assessment and strategy action plan, which includes a quality gap-to-quantity gap map split by skill level similar to that outlined in **Figure 2** below.

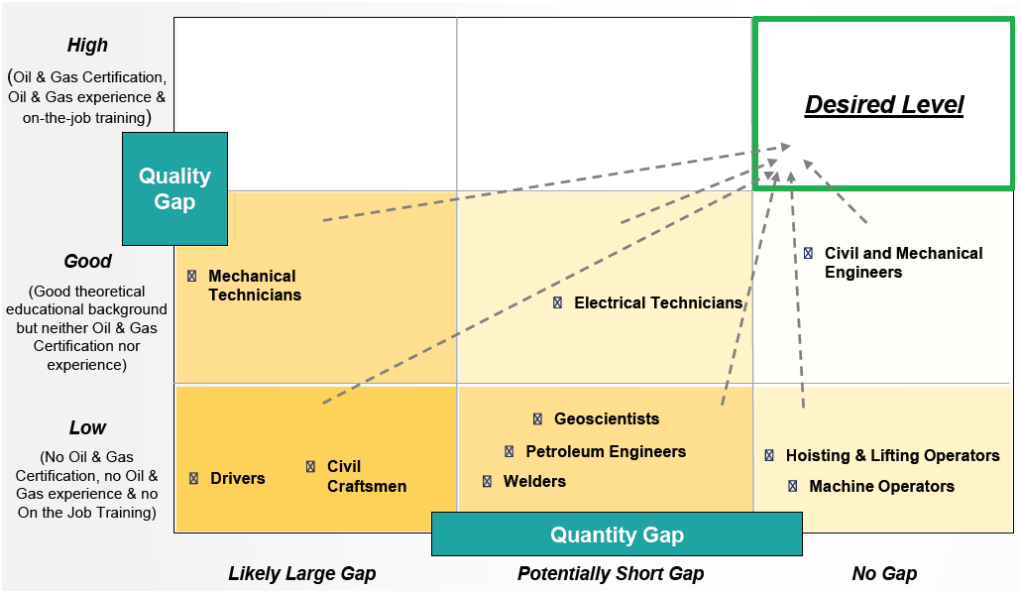

Figure 2 - Skills quality/quantity gap map

b. Provide a detailed gap analysis of Jamaican supplier enterprises that can support an offshore commercial discovery. Analysis should include where practicable:

   i. Mapping of the businesses across the full spectrum of goods and services present in a typical offshore operator's supply chain in order to build a high-level list of purchasing categories to guide the mapping against potential local businesses;

   ii. Through collaboration develop a prioritization tool which identifies which Jamaican goods and services, based for example, on criteria such as the firms potential for growth and competitiveness and potential for 'multiplier' effects with other sectors;

   iii. A local firm-level analysis which should differentiate between a quality gap and a quantity/capacity gap and aim to identify a selection of goods and services requiring future support resulting in a mapping gap chart similar to that identified in **Figure 3** below.

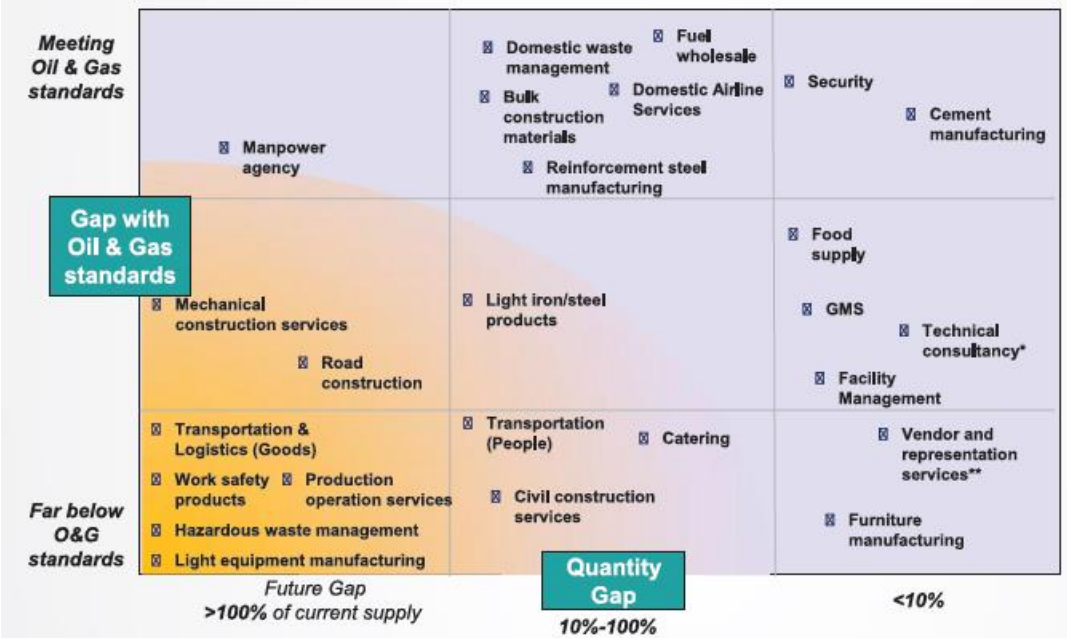

Figure 3 - Goods and Services quality/quantity gap map

iv. The analysis should outline the in-country current capabilities to support potentially multiple exploration campaigns over the upstream lifecycle.

c. Provide a summary report/presentation outlining the key analytical findings for a local content strategy plus recommendations for follow-up next steps in key local supply chains

d. Through collaboration with the MSET, carry out at two public-private workshop/local content engagements to share findings and best practices.
